Eugenix® Indigenous Territories
Indigenous Management Division

Purpose

The purpose of this document is to provide more details about *Eugenix® Indigenous Territories - Natural Resources Management and Dividend Rules* that was written as a first document that provides Arcticus Blancus indigenous policies based on indigenous believes that relate to all natural geological resources and all natural biological resources. In addition, this document will provide Arcticus Blancus policy that relates to all internal Arcletic territories described in the *Eugenix® Indigenous Territories - Permanent Protection Plan.*

Indigenous Ownership Claim

Arcticus Blancus has determined based on indigenous believes, scientific facts, nomenclature and numerology that Arcticus Blancus is a sole owner of 1/3 of the earth's tribal world as defined in the *Eugenix® Indigenous Territories - Permanent Protection Plan.* Arcticus Blancus defined its part to be the 170,000,000 km2 present in two parts equal to 85,000,000 km2 in the norther hemisphere and 85,000,000 km2 in the southern hemisphere.

Indigenous Resources Management

Arcticus Blancus has been given a lot of information related to the present state of this planet. Exploitation of all natural geological and biological resources is present in all corners of the world, especially in the Arcletic territories of the Arcticus Blancus indigenous polar hair climate ethnic group. Earth is an intelligent body in outer space, not a dead rock. Data proves that current free-will democracy

in politics and economy is not directed to "Protect the Earth", and "Develop Sustainable Ways and Means of Life on Earth and Outer Bodies".

Arcticus Blancus has been given the authority from God (Our Galaxy) and Earth (Star Orbiting Nature) to claim indigenous ownership and protection rights based on the United Nations protections. Arcticus Blancus claims therefore all natural geological resources and all natural biological resources on the Arcletic territories defined in the *Eugenix® Indigenous Territories - Permanent Protection Plan* - permanently. No resources on the Arcletic northern or southern territories shall be developed without Arcticus Blancus written permission in accordance with the rules defined by *Eugenix® Indigenous Territories - Natural Resources Management and Dividend Rules.*

Since the Alphabet is the indigenous cryptography of Arcticus Blancus indigenous phonetic language created by Arcticus Blancus study of the Earth Climate there is no way to escape the persecution and punishment for God, Earth and Justice Systems that use alphabetic cryptography. God is not happy to see humans not developing ways and means to live on the Earth and otter Bodies – sustaining ecosystems of all natural geological, biological and human resources.

Indigenous Management Division

Earth's climate has collapsed due to 25,000 years of human exploration of Earth by main tribal groups with limited intentions to study climate and biology and large intentions to conquer and rape. The result is obvious and apparent.

Arcticus Blancus has set on own indigenous northern and southern territories three individual climate zones; upper Arcletic, middle Arcletic and lower Arcletic. Each zone will be managed by the current climate situation for most appropriate ethnic and co-ethnic groups that relate to Arcletic territories.

Eugenix P.S.A. has classified all ethnic hair colors and defined appropriate climate zones within the Arcletic territories for all ethnic and co-ethnic hair groups that want to take part in Indigenous Management Division that will benefit those who protect the Earth. Full classification located in the *Eugenix® Ethnic Hair Quantum - Climatic Hair Ethnic Classification.* Indigenous Management Division

on Arcletic territory based on climate collapse and indigenous climate ethnic hair-phenotype present stated below:

Northern Hemisphere Arcletic Climate Management Division:

a) Upper Arcletic Climate Indigenous Management Falls on Ethnicity - A0 (Arcticus Blancus). Upper Arcletic Territory encircles an area of 28,333,333 km2 located between the 90°00′ 99 North and the 62°45′ North. (90.000000° North to 62.720931° North)

b) Middle Arcletic Climate Indigenous Management Falls on Ethnicities - A1-A4, B1-B4, C1-C4. Middle Arcletic area encircles an area of 28,333,333 km2 located between the 62°45′ 101 North and the 51°05′ North. (62.720931° North to 51.042384° North)

c) Middle Arcletic Climate Indigenous Management Falls on Ethnicities - A5-A6, B5-B6, C5-C6. Lower Arcletic area encircles an area of 28,333,333 km2 located between the 51°05′ 103 North and the 41°45′ North. (51.042384° North to 41.795538° North)

Southern Hemisphere Arcletic Climate Management Division:

a. Upper Arcletic Climate Indigenous Management Falls on Ethnicity - A0 (Arcticus Blancus). The Upper-Arcletic area encircles an area of 28,333,333 km2 located between the 90°00′ 107 South and the 62°45′ South. (90.000000° South to 62.720931° South)

b. Middle Arcletic Climate Indigenous Management Falls on Ethnicities - A1-A4, B1-B4, C1-C4. The Middle-Arcletic area encircles an area of 28,333,333 km2 located between the 62°45′ 109 South and the 51°05′ South. (62.720931° South to 51.042384° South)

c. Middle Arcletic Climate Indigenous Management Falls on Ethnicities - A5-A6, B5-B6, C5-C6. The Lower-Arcletic area encircles an area of 28,333,333 km2 located between the 51°05′ 111 South and the 41°45′ South. (51.042384° South to 41.795538° South)

Indigenous Management Benefits

Within individual Arcletic climate zones defined ethnic and co-ethnic groups are permitted to manage and benefit from land use taxes by means of discounts to own groups and higher tax rate scales to other groups from non-Arcletic territories and groups from other sub-Arcletic zones to incentives all groups to care for own climate and indigenous ecosystem that requires groups to care for own symbiosed ecosystem.

Eugenix P.S.A. has prepared many ecological programs for all management groups in all zones that will have to be implemented as part of the management in the individual territories not limited to what Eugenix P.S.A. has already proposed to the European Union:

1. Eugenix® EU Petition for Responsible and Ecological Restoration Laws
2. Eugenix® EU Petition for Tiered Recycling Fee System
3. Eugenix® EU Petition for Elimination of Cement Paver Stones
4. Eugenix® EU Petition for Elimination of Machine Plaster Technology
5. Eugenix® EU Petition for the Protection of Indigenous Biological Biodiversity
6. Eugenix® EU Petition for Rare Earth Metals Protection
7. Eugenix® EU Petition for Limitation of Consumer Packaging Plastic and Paper Types
8. Eugenix® EU Petition for the Elimination of Fiber Glass in Marine Ecosystem
9. Eugenix® EU Petition for Road Tires and Tubes Deposits
10. Eugenix® EU Petition For Battery Deposit Fees
11. Eugenix® EU Petition for UPC Based Recycling Database
12. Eugenix® EU Petition for Product Service Lifespan Disclosure
13. Eugenix® EU Petition for Consumer Preorder Rights
14. Eugenix® EU Petition for Universal Metric Sizing Standard in European Market
15. Eugenix® EU Petition for EURES Paid Education Grant Program
16. Eugenix® EU Petition for Increased Employment Security thru EURES
17. Eugenix® EU Petition for Annual Laborers' Unionization Referendum
18. Eugenix® EU Petition for Semi-Direct Democracy Mechanism
19. Eugenix® EU Petition for Ratification by EU Members ILO Convention C169

Indigenous and co-indigenous groups that manage and benefit from land taxes and land tax discounts on own indigenous climate zones will have to manage in accordance with Eugenix® P.S.A. developed Arcticus Blancus plan to repair Earth's Climate and sustain Earth Ecosystems by enforcement of territorial preservation by limited access described in the Petitions to the European Union and other Eugenix P.S.A. documents described in series; Indigenous Ecology, Indigenous Biology, Indigenous Botany, Indigenous Fishery, Indigenous Forestry, Indigenous Science and Indigenous Believes.

Indigenous Management groups are welcome to establish indigenous reservations and indigenous gated communities on own indigenous territories and other Arcletic zones and are encouraged to enable and promote own groups indigenous repatriation to self-managed climate zones in accordance with Eugenix P.S.A. Arcticus Blancus policies described in series: Indigenous Territories, Indigenous Reservations, Indigenous Heritage, Indigenous Health that contain many rules developed by the Eugenix P.S.A. such as the ***Indigenous Heritage Protection,*** *Ethnic Hair Quantum* and *Ethnic Hair Climate Classification* nomenclature and numerology in English, Latin and Polish language.

Summary

The important rule is to preserve 90% of natural territory managed which means that management groups will have to conduct survey of all mismanaged territories to determine how much land is used, how the land is managed, set highest environmental standards that preserve used land, used water and used resources from further destruction and dispersion and incentivize land ownership rights and preservation programs for present land and property owners that benefit Earth and Climate more than human developed rights to own land not supported by God. God permits land lease and indigenous climate management - never ownership.

The other important rule is to set internal Arcletic borders that will help to manage indigenous wildlife, limit or eliminate concerns regarding illegal migration and provide a way for inter-continental fast rail transit. The plan to establish borders is described in the *Eugenix® Indigenous Territories - Arctic Borders Protection Program.* Feel free to contact Eugenix P.S.A. regarding all programs and initiatives of climate repair, environmental protection, heritage protection, indigenous management, indigenous borders via physical mail, electronic mail and telephone. All Eugenix P.S.A. publications are available on portal Archive.org and portal Scribd.com.

With Earth Respectfully.
